EDUCATION

Bachelor of Technology in Computer Science Engineering

2024 – 2028

Parul University

CGPA: 8.24/10

Relevant Coursework: Design Thinking, Open Source Software, Computer Networks, Engineering Physics, Microsoft Azure, Discrete Mathematics, Full Stack Development.

TECHNICAL SKILLS

Languages: C++, Java, Python, C

Web: HTML5, CSS3, JavaScript

Frameworks: Flask

Databases: SQL, SQLite

Core: Data Structures, Algorithms, OOP, DBMS

Tools: Git, GitHub, VS Code

EXPERIENCE

Class Representative

2025 – Present

Parul University

- Coordinated communication between faculty and 80+ students.
- Organized academic activities and managed class operations.

Team Lead – Vadodara Hackathon 6.0

2025

- Led a team of 6 to develop a School Management System prototype.
- Managed task allocation, collaboration, and project execution.

Participant – DevTrails Hackathon, Guidewire University

Apr 2026

- Built a solution for delivery workers with weather-based loss estimation using MongoDB.

Team Lead – Odoo x Parul University Hackathon 2026

May 2026

- Led development of a travel planning and trip management solution using PostgreSQL.

TECHNICAL PROJECTS

PS Creation – E-Commerce Web Application

[\[GitHub Link\]](#)

- Problem Statement:** Building a full-stack e-commerce platform with secure user authentication and personalized cart management.
- Major Impact:** Developed RESTful backend using Flask with SQLite database integration and implemented session-based authentication.
- Outcome:** Delivered a responsive web application with dynamic cart functionality and structured frontend using HTML, CSS, and JavaScript.

Frontend UI Clones – Instagram & Netflix

[\[Instagram Demo\]](#) | [\[Netflix Demo\]](#)

- Problem Statement:** Designing responsive UI replicas of popular platforms focusing on layout accuracy and visual hierarchy.
- Major Impact:** Built structured, pixel-accurate interfaces using modern CSS (Flexbox, Grid) with fully responsive layouts.
- Outcome:** Demonstrated strong frontend fundamentals and scalable UI architecture across multiple screen sizes.

DSA Practice Repository

[\[GitHub Link\]](#)

- Problem Statement:** Strengthening algorithmic thinking through consistent Data Structures and Algorithms practice.
- Major Impact:** Maintained structured solutions in Java and C++ covering arrays, strings, recursion, trees, graphs, and dynamic programming.
- Outcome:** Improved competitive programming performance and problem-solving efficiency across coding platforms.

CONSISTENCY & ACHIEVEMENTS

- Competitive Programming:** Solved **200+** problems on LeetCode, **200+** on GeeksforGeeks, **170+** on CodeChef, and **100+** on Codeforces (800+ rating).
- Technical Certifications:** HTML & CSS – Certiport ([View](#)), JavaScript – Certiport ([View](#)), Python – IBM ([View](#)), Generative AI Bootcamp – LetsUpgrade ([View](#)), JavaScript Bootcamp – LetsUpgrade ([View](#))
